

Fal & Helford SAC Management Scheme Working Group

21st June 2012

09.30-11.00

Pydar House, Truro

Suggested items for discussion

1. The finished document
How closely should the finished product resemble the original document?
What should be included/omitted?
What is realistically achievable?
Are there any concerns from WG members?
2. Do we need a WG Terms of Reference?
3. Can we set out a timeframe with key milestones today?
4. A good starting point for the WG would be to review the table of action points set out in the existing Management Scheme – is this agreeable?
5. Engagement process and consultation
How will wider MF & AG members feed into the process and when?
Workshop, questionnaire, comments by email on drafts?
Do we need to undertake informal/formal consultation?
Should consultation include the wider public?
